5/2/19

Present: C.W- G.D- F.C-A. R-Mrs Marshall

Apologies J. M- A.B

Action plan

We talked about the following areas:

1. Marine
2. waste
3. health
4. energy
5. living

Waste week 25th March

We are going to have a whole school focus on waste during waste week

In the week we want to:

- Learn about plastics and how they affect the environment
- We received some free books from an author about marine animals and plastics, we're going to ask the author to come in to talk to us. Eco Team to write her a letter
- find out about Mrs Kenways friend who will talk to the school about plastic waste and show us a film
- Plan an assembly about plastics in the sea
- Consider having ocean day instead of the endangered animal day in the summer term

Mrs Marshalls going to talk to the teachers and get ideas from them

Healthy living

We looked at the class surveys and saw that KS2 eat very little fruit for snack. Its mainly crisps or biscuits. We talked about how we could encourage each class to eat more fruit. We will ask each ks2 class what we can do to encourage children to eat fruit at least once a week. Also do they understand why crisps and biscuits aren't good for you.

Fairtrade Fortnight

We wrote to the Eden project and they have given us a free family ticket for our prize draw. This will be to encourage families to submit recipes for our Fairtrade Recipe book

There will be a meeting with Mrs Kenway to plan next steps about the recipe cook book.

AOB- We checked all the classes had up to date Eco codes. We are thinking about having a competition for a new eco-code.
